

Totally a “Calculator”

“yes sir this is a calculator”

A “Calculator” with an extra library of “additional apps”

2.42" OLED

Plenty of screen real estate for “extra apps”

how to game
in class 101

“Extra buttons”

to utilise the full potential of the “extra app library”

1100mAh battery

somewhere in there. more power for the “power intensive extra apps”

- 1100mAh battery
- 2.42" OLED display
- Functions as a calculator
- With “extra library of apps”
- Uses Pi Pico
- Runs Doom
